INFORMATION TO USERS OF THE SITE

pursuant to article 13 of EU Reg. 2016/679 GDPR

Data collected from the interested party

Dear interested person,

We hereby wish to inform you about the processing we will carry out on your personal data, as well as provide you with any useful information to facilitate contact and interaction with our offices.

Data controller

The data controller is CLT Automazione Snc.

Processing of personal data

This page describes the site management methods in relation to the processing of personal data of users who interact with the web services on this CLT Automazione Snc site.

The information is provided only for this site and not for other websites that may be consulted by the user via links.

Pursuant to art. 13 of EU Reg. 2016/679 (GDPR), the undersigned, as Data Controller, informs you that the personal data acquired will be processed in compliance with the rights of fundamental freedoms, as well as the dignity of the interested party, with particular reference to confidentiality and personal identity and the right to protection of personal data.

Pursuant to art. 13 of the aforementioned Regulation, therefore, we provide you with the following information:

Browsing data

Your provider, the IT systems and the software procedures used to operate this website acquire, during their normal operation, some personal data whose transmission is implicit in the use of Internet communication protocols.

This is information that is not collected to be associated with identified interested parties, but which by its very nature could, through processing and association with data held by third parties, allow users to be identified.

This category of data includes the IP addresses or domain names of the computers used by users who connect to the site, the addresses in URI (Uniform Resource Identifier) notation of the requested resources, the time of the request, the method used in submitting the request to the server, the size of the file obtained in response, the numerical code indicating the status of the response given by the server (successful, error, etc.) and other parameters relating to the operating system and the user's IT environment.

This data is used for the sole purpose of checking the correct functioning of the site and could be used to ascertain responsibility in the event of hypothetical computer crimes against the site.

Data provided voluntarily by the user

The optional, explicit and voluntary sending of electronic mail to the addresses indicated on this site entails the subsequent acquisition of the sender's address, necessary to respond to requests, as well as any other personal data included in the message.

The relevant detailed information can be consulted on the pages of the site where specific collections of personal data are foreseen.

Personal data will be processed exclusively for purposes connected and/or instrumental to consultation of the site, therefore excluding any other different use. The processing of information concerning you will be based on the principles of correctness, lawfulness, transparency and protection of confidentiality and may be processed and stored both with IT tools and with paper methods for the time strictly necessary to achieve the purposes for which they were collected. .

Specific security measures are observed to prevent data loss, illicit or incorrect use and unauthorized access.

Any provision of data is optional, however, refusal to provide personal data relevant to the purpose of the collection will not make it possible to obtain what is requested.

Any processing connected to the web services of this site is handled by our data processors and by third parties who act as data controllers (e.g. hosting providers) or independent data controllers (e.g. online payment service providers).).

In any case, your personal data will not be subject to disclosure without specific consent.
